

# CoreDRAW

## PRIVATE ONE-ON-ONE TRAINING

### Who uses CoreIDRAW:

- Direct to Garment Shops
- Embroidery Business
- Clothing and Apparel Designers
- Engraving Industry
- Vinyl Sign Makers
- Quilt Designers
- Graphic Designers
- Designer of marketing materials
- Small & Large Businesses
- And many others

### Why choose One-on-One Training?:

- Training is Customized to your specific needs.
- Advance to the next level at your own speed.
- Hands on training in a quiet environment.
- Follow up training available as you need it.
- **FREE** on going Technical Support.
- You are the instructors only focus.

I am Jim Cormier and I have been using CoreIDRAW for 15 years and teaching it for about 12 of those years.

I bring my years of experience and knowledge to each student I provide training to.

To see how I use CoreIDRAW in my daily business visit my web site at [squareonegraphics.com](http://squareonegraphics.com).

Can you believe this Colt 45 was drawn completely in CoreIDRAW? Well I can because I drew it and I can show you how.

**Square One Graphics**  
22911 Pine Hollow Rd  
Colfax, CA 95713 • 530-637-1162

### What you will learn:

- Working with shapes
- Working with Fills & Textures
- Designing from Scratch
- Vectorizing Raster Images
- Setting up templates
- Working with layers
- Text Manipulation
- Trim-Weld-Intersect
- The power of using guidelines
- And much more..

I offer a training option that meets your schedule and budget. We can train by the hour, blocks of hours or an entire day. My rate is **\$45.00** per hour and the training is offered in my home office.

**Possible on site one-on-one training may be considered** in the greater Sacramento, CA area only. There would be an additional \$5.00 per hour charge added to cover (travel expenses). You would have to provide computer(s) with CoreIDRAW loaded on them. We are open to offering you a group rate.
